Project Experience

Local Tournament Registration Platform

Lead Developer

Solan, HP

May 2025 – October 2025

- Served as a project team leader and developed a database to track the adoption of animals proficiently
- Developed a custom user interface using Visual Basic to significantly improve the user experience for tournament participants
- Integrated HTML, CSS, JavaScript, and Google Forms to create an interactive website capable of managing player data and tournament schedules

Online Food Ordering System

Full-Stack Developer

Solan, HP

January 2026 – Present

- Developed a dynamic shopping cart system featuring real-time quantity adjustments, total price calculations, and a custom Coupon Engine (percentage and flat-rate discounts)
- Implemented secure user authentication and session management using localStorage and conditional routing
- Optimized UI/UX using modern CSS and Grid layouts to build a professional “Zomato-style” interface ensuring high engagement

Certifications

- WordPress Certification
- Data Analyst Certification – Coursera

Soft Skills

- Teamwork & Collaboration: Worked effectively in team environments to solve problems and deliver quality results within deadlines
- Adaptability: Quickly learned multiple programming languages during the first year to contribute to diverse projects
- Communication: Clearly articulated ideas and technical concepts during project discussions and presentations
